

Maryland Quality Reporting

CMS Overall Star Ratings - Hospitals

Centers for Medicare and Medicare Services Overall Star Ratings

The Centers for Medicare and Medicaid Services (CMS) uses a star rating system to measure hospital performance to help consumers make informed healthcare decisions. The star rating summarizes a variety of measures across five areas of quality (mortality, safety of care, readmissions, patient experience, and timely and effective care) into a single star rating for each hospital (5 stars is the highest, 1 star is the lowest). The star ratings are updated annually.

National Rankings

- Proportionally, Maryland has fewer 4-star and 5-star facilities compared to the nation. Maryland has about the same number of 1-star facilities and 3-star facilities, and more 2-star facilities compared to the nation.

28	Washington	11.11%			

CMS Overall Star Ratings - Hospitals

Data Sources

The star ratings are updated annually. The most recent ratings were released in the April 2021 CMS Care Compare update. The hospital star rating methodology was recently changed and the star ratings were calculated using data from the October 2020 CMS Care Compare update. To see star ratings for individual hospitals, visit [CMS Care Compare](#).

The areas of quality included in the star rating and the time periods displayed in this report are as follows:

Area of Quality	Time Periods Covered*
Mortality	July 1, 2016 - June 20, 2019 July 1, 2017 - June 30, 2019
Safety of Care	April 1, 2016 - March 31, 2019 January 1, 2019 - December 31, 2019 July 1, 2017 - June 30, 2019
Readmissions	July 1, 2016 - June 30, 2019 January 1, 2016 - December 31, 2018 January 1, 2018 - December 31, 2018
Patient Experience	January 1, 2019 - December 31, 2019
Timely and Effective Care	January 1, 2018 - December 31, 2018 July 1, 2018 - June 30, 2019 January 1, 2019 - December 31, 2019 October 1, 2019 - March 31, 2020
